WHEREAS, James R. Holley & Associates, Inc. has prepared an Act 537 Sewage Facilities Plan which addresses sewage needs in Fawn Grove Borough, and the plan recommends the continued use of on-lot sewage disposal systems in the Borough. The alternative of choice to be implemented includes: 1) Establishing an on- lot sewage management program involving the pumping and inspection of each on-lot sewage disposal system in the Borough every four years, through adoption of an ordinance. 2) Requiring hydrogeological studies for all new subdivision and certain land development plans proposing the use of on-lot sewage systems throughout the Borough, to address groundwater nitrate-nitrogen levels, through a revision to the subdivision and land development ordinance. 3) Revising the subdivision ordinance to require both primary and replacement sewage system tests on all new lots to be served by on-lot sewage disposal. 4) Establishing a new well siting and construction standards ordinance.

The key implementation activities/dates are as follows:

- Establish on-lot sewage management program, well ordinance, and revise subdivision and land development ordinance regarding multiple sewage system testing and hydrogeological studies within 120 days following plan approval.

WHEREAS, Fawn Grove Borough finds that the Facility Plan described above conforms to applicable zoning, subdivision, other municipal ordinances and plans and to a comprehensive program of pollution control and water quality management.

NOW, THEREFORE, BE IT RESOLVED that the Council of the Borough of Fawn Grove hereby adopts and submits to the Department of Environmental Protection for its approval as a revision to the "Official Plan" of the Borough, the above referenced Facility

Plan. The Borough hereby assures the Department of the complete and timely implementation of the said plan as required by law (Section 5, Pennsylvania Sewage Facilities Act as amended).
